Impact of Timetable Fragmentation on Student Productivity & Fatigue

Hello, I am Vignesh Balamurugan M.B, a 3rd Year student from IIIT Sri City. This survey is conducted as part of the academic coursework for the subject Introduction to Data Handling and Visualization (IDHV).

The purpose of this study is to understand how fragmented class schedules (gaps between classes) affect hosteller productivity, fatigue, and campus utilization. The responses collected will be used for data analysis and exploratory data analysis (EDA).

This Study consist of 4 sections

All responses are confidential and will be anonymized during analysis.
